Top 3 Inventory Problems faced in Retail

Profitability Problems
- Not having what the customer needs/No sale
- Clearance Sales/Trashing old, irrelevant stock

Retail Space Problems
- Trying to carry something for every device
- Not carrying enough selection in other categories

PO Creation Problems
- Trying to keep up with all the new models coming out
- Unpredictable quantities to order/Ordering too much

Our Solution

Equip your Retail Store with the necessary means to overcome problems

YOUR COMPANY

- ONE SKU FITS ALL - Reduction in on hand inventory
- NO SPILLOVER - What they need, when they need it
- NO PO GUESSWORK - Have the right stock
- NO CLEARANCE - Always sell for retail price
- NO SHRINKAGE - Customers will not snatch & grab
- OTHER STOCK - Stock more chargers, headsets, etc
- CUSTOMER LOYALTY - Be the store that always has what customers need, and be the GO TO for referrals

YOUR CUSTOMERS

- CONVENIENCE - Saves them a trip somewhere else
- QUALITY - Product they can count on
- CONFIDENCE - They'll have more confidence in you

Opportunity

A NEW era in ScreenFilm™ cutting and printing!

The Axiom Armor™ ScreenFilm™ 3.0 cutting system includes built-in WIFI and Bluetooth connectivity and is complete with it's Android operating system. You can choose to use the on-screen interface with WIFI connectivity or use the smartphone app via bluetooth! The ScreenFilm™ 3.0 system is a cutting system exclusively for the Axiom Armor™ ScreenFilm™ and back skins. The machine runs from its own built-in UI and includes over 16,000 device cut files which are automatically updated for you in the background! It takes less than 5 seconds to precision cut ScreenFilm™ and back skins, and is capable of cutting ScreenFilm™ for Phones, Tablets up to 12.9", Laptops up to 15.9", Handheld Game Systems, Wearables, and much more!

Want to print ON DEMAND custom back skins for your customer? This machine also works in conjunction with select Canon Inkjet Printers and uses our PRINTABLE BACK SKINS. It runs it's own wifi printer discovery system, and prints directly to the printer. It does not require any computer or phone to perform this function!

Pricing
